Cost Calculation Example

If you are 29 years old, with a total trip cost of \$1,500 and your trip length is 10 days, your total cost is \$80.40.

Base Rate = \$71.00

Daily Rate = \$.94 x 10 (days) or \$9.40

$\$71.00 + \$9.40 = \$80.40$

After you choose your plan and calculate your cost, please fill out the form on page 5 to enroll.

How to Calculate Cost

To calculate cost, please choose a plan and follow the steps below using the Plan Pricing chart on page 4.

1. Find the base rate which corresponds with traveler(s) age and trip cost.
2. Find the daily rate (identified as X) and multiply by total number of travel days.
3. Add number 1 and 2 together to calculate your total cost.

If the trip exceeds 31 days

4. Find the extended daily rate (identified as Y) and multiply by number of travel days in excess of 31. Add this to the total cost calculated in step 3.

Medical Evacuation Benefit

If an Insured Person is involved in an accident or suffers a sudden, unforeseen illness requiring emergency medical services, while traveling more than 100 miles from their place of residence on an overnight trip, and adequate medical facilities are not available, the Administrator will coordinate and pay for a medically-supervised evacuation, up to the Maximum Limit shown in the Schedule of Benefits, to the nearest appropriate medical facility. This medically-supervised evacuation will be to the nearest medical facility only if the facility is capable of providing adequate care. The evacuation will only be performed if adequate care is not available locally and the Injury or Sickness

requires immediate emergency medical treatment, without which there would be a significant risk of death or serious impairment. The determination of whether a medical condition constitutes an emergency and whether area facilities are capable of providing adequate medical care shall be made by physicians designated by the Administrator after consultation with the attending physician on the Insured Person's medical conditions. The decision of these designated physicians shall be conclusive in determining the need for medical evacuation services.

Transportation shall not be considered medically necessary if the physician designated by the Administrator determines that the Insured Person can continue his/her trip or can use the original transportation arrangements that he/she purchased. The Insurer will pay Reasonable Charges for escort services if the Insured Person is a minor or if the Insured Person is disabled during a trip and an escort is recommended in writing by the attending Physician and approved by the Insurer. As part of a medical evacuation, the Administrator shall also make all necessary arrangements for ground transportation to and from the hospital, as well as pre-admission arrangements, where possible, at the receiving hospital. If following stabilization, when medically necessary and subject to the Administrator's prior approval, the Insurer will pay for a medically supervised return to the Insured Person's permanent residence or, if appropriate, to a health care facility nearer to their permanent residence or for one-way economy airfare to the Insured Person's point of origin, if necessary. All evacuations must be approved and coordinated by Administrator designated physicians. Transportation must be by the most direct and economical route. With respect to this provision only, the following is in lieu of the Policy's Extension of Benefits provision: No benefits are payable for Covered Expenses incurred after the date the Insured Person's insurance under the Policy terminates. However, if on the date of termination the Insured Person is Hospital Confined, then coverage under this benefit provision continues until the earlier of the date the Hospital Confinement ends or the end of the 31st day after the date of termination.

Bedside Visit Benefit

If an Insured Person is Hospital Confined due to an Injury or Sickness for more than 7 days, is likely to be hospitalized for more than 7 days or is in critical condition, while traveling more than 100 miles from their place of residence on an overnight trip, the Insurer will pay up to the maximum benefit as listed in Table 1 of the Schedule of Benefits for the cost of one economy round trip air fare ticket to, and the hotel accommodations in, the place of the Hospital Confinement for one person designated by the Insured Person. Payment for meals, ground transportation and other incidentals are the responsibility of the family member or

friend. With respect to any one trip, this benefit is payable only once for that trip, regardless of the number of Insured Persons on that trip. The determination of whether the Covered Member will be hospitalized for more than 7 or is in critical condition shall be made by the Administrator after consultation with the attending physician. No more than one (1) visit may be made during any 12 month period. No benefits are payable unless the trip is approved in advance by the Plan Administrator.

Important Definitions

Accidental Injury means an accidental bodily Injury sustained by an Insured Person which is the direct cause of a loss independent of disease, bodily infirmity, or any other cause.

An Illness is a sickness, disease, or condition of an Insured Person which first manifests itself after the Insured Person's Effective Date.

Complications of Pregnancy are conditions, requiring hospital confinement (when the pregnancy is not terminated), whose diagnoses are distinct from the pregnancy, but are adversely affected by the pregnancy, including, but not limited to acute nephritis, nephrosis, cardiac decompression, missed abortion, pre-eclampsia, intrauterine fetal growth retardation, and similar

medical and surgical conditions of comparable severity. Complications of Pregnancy also include termination of ectopic pregnancy, and spontaneous termination of pregnancy, occurring during a period of gestation in which a viable birth is not possible. Complications of Pregnancy do not include elective abortion, elective cesarean section, false labor, occasional spotting, morning sickness, physician prescribed rest during the period of pregnancy, hyperemesis gravidarum, and similar conditions associated with the management of a difficult pregnancy not constituting a distinct complication of pregnancy

The Coverage Period Maximum Benefit is the maximum amount of benefits available to each Insured Person during the person's Coverage Period (Period of Insurance and/or Trip Coverage Period). All benefits furnished are subject to these maximum amounts.

Covered Expenses are the expenses incurred for Covered Services. Covered Expenses for Covered Services will not exceed Reasonable Charges. In addition, Covered Expenses may be limited by other specific maximums described in this Plan under section IV, How the Plan Works and section V, Benefits: What the Plan Pays. Covered Expenses are subject to applicable Deductibles, penalties and other benefit limits. An expense is incurred on the date the Insured Person receives the service or supply.

Covered Services are Medically Necessary services or supplies that are listed in the benefit sections of this Plan, and for which the Insured Person is entitled to receive benefits.

A Primary Plan is a Group Health Benefit Plan, an individual health benefit plan, or a governmental health plan (including Medicare) designed to be the first payor of claims for an Insured Person prior to the responsibility of this Plan.

Group Health Benefit Plan means a group, blanket, or franchise insurance policy, a certificate issued under a group policy, a group hospital service contract, or a group subscriber contract or evidence of coverage issued by a health maintenance organization that provides benefits for health care services. The term does not include: 1) accident-only, credit or disability insurance coverages; 2) specified disease coverage or other limited benefit policies; 3) coverage of Medicare services under a federal contract; 4) Medicare Supplement and Medicare Select policies regulated in accordance with federal law; 5) long-term care, dental care, or vision care coverages; 6) coverage provided by a single service health maintenance organization; 7) insurance coverage issued as a supplement to liability insurance; 8) insurance coverage arising out of a workers' compensation system or similar statutory system; 9) automobile medical

payment insurance coverage; 10) jointly managed trusts authorized under 29 U.S.C. Section 141 et seq. that contain a plan of benefits for employees that is negotiated in a collective bargaining agreement governing wages, hours, and working conditions of the employees that is authorized under 29 U.S.C. Section 157; 11) hospital confinement indemnity coverage; or 12) reinsurance contracts issued on a stop-loss, quota share, or similar basis.

Home Country means the Insured Person's country of domicile named on the enrollment form or the roster, as applicable. However, the Home Country of an Eligible Dependent who is a child is the same as that of the Eligible Participant.

The Insurer means HM Life Insurance Company, a nationally licensed and regulated insurance company. Insurer also includes a third party administrator with which the Insurer has contracted to perform certain of its duties on its behalf. The Group and the Insured Participant will be notified of the use of an administrator.

Medically Necessary services or supplies are those that the Insurer determines to be all of the following: 1) Appropriate and necessary for the symptoms, diagnosis or treatment of the medical condition; 2) Provided for the diagnosis or direct care and treatment of the medical condition; 3) Within standards of good medical practice within the organized community; 4) Not primarily for the patient's, the Physician's, or another provider's convenience; 5) The most appropriate supply or level of service that can safely be provided. For Hospital stays, this means acute care as an inpatient is necessary due to the kind of services the Insured Person is receiving or the severity of the Insured Person's condition and that safe and adequate care cannot be received as an outpatient or in a less intensified medical setting. The fact that a Physician may prescribe, authorize, or direct a service does not of itself make it Medically Necessary or covered by the Policy.

It is not subject to the guaranteed renewability and portability provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA). The Insured Person may not purchase insurance under this Plan for a Period of Insurance longer than 6 months.

duplication of benefits, or other similar provisions. The amount from Other Plans includes any amount to which the Insured Person is entitled, whether or not a claim is made for the benefits. This Policy is secondary coverage to all other policies.
